TABLE OF CONTENTS

1	Introduction	10
1.1	What is this Report About?	10
1.2	Definitions	10
1.3	Summary Methodology	12
2	Executive Summary	15
3	Construction Industry Analysis	16
3.1	Construction Industry Overview	16
3.2	Industry Dynamics.....	17
4	Construction Industry Data	18
4.1	Historic Industry Value	18
4.2	Historic Industry Segmentation.....	19
4.3	Industry Value Forecast	20
4.4	Industry Segmentation Forecast.....	21
5	Construction Industry: Market Analysis.....	22
5.1	Commercial Construction Market Analysis	22
5.1.1	Market Dynamics.....	23
5.1.2	Commercial Construction Market Value	24
5.1.3	Commercial Construction Market Segmentation.....	25
5.1.4	Commercial Construction Market Value Forecast.....	26
5.1.5	Commercial Construction Market Segmentation Forecast	27
5.2	Commercial Construction: Category Analysis.....	28
5.2.1	Leisure and Hospitality Construction Category Value Review.....	28
5.2.2	Leisure and Hospitality Construction Category Value Forecast.....	29
5.2.3	Office Buildings Construction Category Value Review.....	30
5.2.4	Office Buildings Construction Category Value Forecast.....	31
5.2.5	Outdoor Leisure Facilities Construction Category Value Review.....	32
5.2.6	Outdoor Leisure Facilities Construction Category Value Forecast	33
5.2.7	Retail Buildings Construction Category Value Review	34
5.2.8	Retail Buildings Construction Category Value Forecast.....	35
5.2.9	Other Commercial Construction Category Value Review.....	36
5.2.10	Other Commercial Construction Category Value Forecast.....	37
5.3	Industrial Construction Market Analysis.....	38
5.3.1	Market Dynamics.....	39

5.3.2	Industrial Construction Market Value.....	40
5.3.3	Industrial Construction Market Segmentation	41
5.3.4	Industrial Construction Market Value Forecast	42
5.3.5	Industrial Construction Market Segmentation Forecast.....	43
5.4	Industrial Construction: Category Analysis	44
5.4.1	Chemical and Pharmaceutical Plants Construction Category Value Review	44
5.4.2	Chemical and Pharmaceutical Plants Construction Category Value Forecast	45
5.4.3	Manufacturing Plants Construction Category Value Review	46
5.4.4	Manufacturing Plants Construction Category Value Forecast	47
5.4.5	Metal and Material Processing Plants Construction Category Value Review.....	48
5.4.6	Metal and Material Processing Plants Construction Category Value Forecast	49
5.4.7	Refinery Buildings Construction Category Value Review	50
5.4.8	Refinery Buildings Construction Category Value Forecast.....	51
5.4.9	Storage Tanks Construction Category Value Review	52
5.4.10	Storage Tanks Construction Category Value Forecast	53
5.4.11	Waste Processing Plants Construction Category Value Review	54
5.4.12	Waste Processing Plants Construction Category Value Forecast	55
5.5	Infrastructure Construction Market Analysis	56
5.5.1	Market Dynamics.....	57
5.5.2	Infrastructure Construction Market Value	58
5.5.3	Infrastructure Construction Market Segmentation.....	59
5.5.4	Infrastructure Construction Market Value Forecast.....	60
5.5.5	Infrastructure Construction Market Segmentation Forecast	61
5.6	Infrastructure Construction: Category Analysis.....	62
5.6.1	Energy and Communications Infrastructure Construction Category Value Review	62
5.6.2	Energy and Communications Infrastructure Construction Category Value Forecast.....	63
5.6.3	Rail Infrastructure Construction Category Value Review.....	64
5.6.4	Rail Infrastructure Construction Category Value Forecast	65
5.6.5	Road Infrastructure Construction Category Value Review	66
5.6.6	Road Infrastructure Construction Category Value Forecast	67
5.6.7	Sewage Infrastructure Construction Category Value Review	68
5.6.8	Sewage Infrastructure Construction Category Value Forecast	69
5.6.9	Water Infrastructure Construction Category Value Review	70
5.6.10	Water Infrastructure Construction Category Value Forecast	71
5.6.11	Other Infrastructure Projects Construction Category Value Review	72
5.6.12	Other Infrastructure Projects Construction Category Value Forecast	73
5.7	Institutional Construction Market Analysis	74

TABLE OF CONTENTS

5.7.1	Market Dynamics.....	75
5.7.2	Institutional Construction Market Value Review.....	76
5.7.3	Institutional Construction Market Segmentation Review.....	77
5.7.4	Institutional Construction Market Value Forecast.....	78
5.7.5	Institutional Construction Market Segmentation Forecast.....	79
5.8	Institutional Construction: Category Analysis.....	80
5.8.1	Educational Buildings Construction Category Value Review.....	80
5.8.2	Educational Buildings Construction Category Value Forecast.....	81
5.8.3	Healthcare Buildings Construction Category Value Review.....	82
5.8.4	Healthcare Buildings Construction Category Value Forecast.....	83
5.8.5	Institutional Buildings Construction Category Value.....	84
5.8.6	Institutional Buildings Construction Category Value Forecast.....	85
5.8.7	Religious Buildings Construction Category Value.....	86
5.8.8	Religious Buildings Construction Category Value Forecast.....	87
5.8.9	Research Facilities Construction Category Value.....	88
5.8.10	Research Facilities Construction Category Value Forecast.....	89
5.9	Residential Construction Market Analysis.....	90
5.9.1	Market Dynamics.....	91
5.9.2	Residential Construction Market Value Review.....	92
5.9.3	Residential Construction Market Segmentation Review.....	93
5.9.4	Residential Construction Market Value Forecast.....	94
5.9.5	Residential Construction Market Segmentation Forecast.....	95
5.10	Residential Construction: Category Analysis.....	96
5.10.1	New Multi-Family Housing Construction Category Value Review.....	96
5.10.2	New Multi-Family Housing Construction Category Value Forecast.....	97
5.10.3	Residential Building Redevelopment Construction Category Value Review.....	98
5.10.4	Residential Building Redevelopment Construction Category Value Forecast.....	99
5.10.5	Single-Family Housing Construction Category Value Review.....	100
5.10.6	Single-Family Housing Construction Category Value Forecast.....	101
6	Company Profile: Orascom Construction Industries S.A.E.....	102
6.1	Orascom Construction Industries S.A.E - Company Overview.....	102
6.2	Orascom Construction Industries S.A.E - Business Description.....	102
6.3	Orascom Construction Industries S.A.E - Major Products and Services.....	104
6.4	Orascom Construction Industries S.A.E - History.....	105
6.5	Orascom Construction Industries S.A.E - SWOT Analysis.....	106
6.5.1	Orascom Construction Industries S.A.E – Strengths.....	106

6.5.2	Orascom Construction Industries S.A.E – Weaknesses	106
6.5.3	Orascom Construction Industries S.A.E – Opportunities.....	107
6.5.4	Orascom Construction Industries S.A.E – Threats.....	108
6.6	Orascom Construction Industries S.A.E – Company Information.....	109
6.6.1	Orascom Construction Industries S.A.E - Key Competitors	109
6.6.2	Orascom Construction Industries S.A.E - Key Employees	109
7	Company Profile: The Arab Contractors Osman Ahmed Osman & Co	110
7.1	The Arab Contractors Osman Ahmed Osman & Co Company Overview.....	110
7.2	The Arab Contractors Osman Ahmed Osman & Co - Business Description	110
7.3	The Arab Contractors Osman Ahmed Osman & Co - Major Products and Services.....	111
7.4	The Arab Contractors Osman Ahmed Osman & Co - History	112
7.5	The Arab Contractors Osman Ahmed Osman & Co – Company Information.....	112
7.5.1	The Arab Contractors Osman Ahmed Osman & Co - Key Competitors.....	112
7.5.2	The Arab Contractors Osman Ahmed Osman & Co - Key Employees	112
8	Company Profile: Engineering Consultants Group, S.A.....	114
8.1	Engineering Consultants Group, S.A. Company Overview	114
8.2	Engineering Consultants Group, S.A. - Business Description.....	114
8.3	Engineering Consultants Group, S.A. - Major Services	115
8.4	Engineering Consultants Group, S.A. - History.....	116
8.5	Engineering Consultants Group, S.A. - Company Information	116
8.5.1	Engineering Consultants Group, S.A. - Key Competitors.....	116
8.5.2	Engineering Consultants Group, S.A. - Key Employees.....	117
9	Annual Review	118
10	Appendix.....	121
10.1	About World Market Intelligence.....	121
10.2	Disclaimer.....	122

1 Introduction

1.1 What is this Report About?

This report is the result of WMI's extensive market and company research covering the Egyptian construction Industry. It provides detailed analysis of both historic and forecast construction industry values, at market and category level, analysis of the leading companies in the industry, and major news.

"The Future of Construction in Egypt to 2015" provides a top-level overview and detailed market, category and company-specific insights into the operating environment for construction contractors. It is an essential tool for companies active across the Egyptian construction value chain and for new competitors considering entering the industry.

1.2 Definitions

For the purposes of this report, the following timeframes apply:

- **Review period:** 2006–10
- **Forecast period:** 2010–15

The total value of construction projects can be broadly segmented into the following sectors, related to the products and service types provided during the project:

- Land acquisition and preparation
- Planning and feasibility studies
- Architectural and engineering design
- Construction
 - Construction services
 - Labor
 - Project management
 - Materials
 - Building products
 - Construction materials
 - Construction equipment
- Advisory services
 - Financing
 - Inspection and testing
 - Legal
- Equipment and furnishings

- Interior products
- Exterior products
- Industrial equipment
- Other

This report focuses on the value of the construction industry, based on the total revenue generated by construction contractors each year.

All data is collected in local currency. To avoid distortions due to currency fluctuations, all conversions into US\$, of current, historical and forecast data alike, are made with a yearly average exchange rate. All values in tables, with the exception of compound annual growth rate (CAGR) and compound annual rate of change (CARC) are displayed to one decimal place. Growth rates may, therefore, appear inconsistent with absolute values due to this rounding method.

The key market categories featured in the report are defined below:

Table 1: World Market Intelligence Construction Market Definitions

Market	Definition
Commercial construction	Includes the construction of projects such as office buildings, sports complexes such as athletic fields, golf courses and parks, shopping centers and hotels. For reporting purposes, the market is split into five main areas: leisure and hospitality buildings, office buildings, outdoor leisure facilities, retail buildings and other commercial construction.
Infrastructure construction	A range of heavy infrastructure construction projects including, but not limited to, the construction of highways, bridges, tunnels, water lines, sewer lines, pipelines, power and communication transmission lines, dams, dikes, docks, drainage projects, harbors, reservoirs, canals, sewage treatment plants, water treatment plants, subways, and other mass transit projects. For reporting purposes, the market is split into six main areas: energy and communication infrastructure, rail infrastructure, road infrastructure, sewage infrastructure, water infrastructure and other infrastructure projects.
Industrial construction	Consists of the construction, including new build, extensions and major rebuilds, of industrial buildings. The construction of additional structures with similar production processes to industrial buildings, for example incinerators, cement plants, blast furnaces and similar non-building structures is also included. For reporting purposes, the market is split into six main areas: chemical and pharmaceutical plants, manufacturing plants, metal and material processing plants, refinery buildings, storage tanks and waste processing plants.
Institutional construction	Includes the construction of buildings and facilities that do not fall within the remit of commercial construction, but which by nature are not industrial. This includes educational institutions, research facilities, healthcare facilities, and religious buildings. These may be either public or private sector. For reporting purposes, the market is split into five main areas: educational buildings, healthcare buildings, institutional buildings, religious buildings and research facilities.
Residential construction	Includes the construction, renovation and demolition of residential buildings such as houses, townhouses, cottages, condominiums, single-unit dwellings, sub-divisions and apartments. For reporting purposes, the market is split into three main areas: new multi-family housing, residential building redevelopment and single-family housing.

1.3 Summary Methodology

All WMI reports are rigorously sourced and created according to a comprehensive four-stage methodology:

1) Market study

A) Standardization

- Market definitions are specified using recognized industry classifications. The same definition is used for every country.
- Annual average currency exchange rates are collected for the latest complete year. These are then applied across both the historical and forecast data to remove exchange rate fluctuations

B) Internal audit

- Review of in-house databases to gather existing data:
 - Historic market databases and reports
 - Company database
 - Construction magazine portfolio
 - Construction projects database

C) Trend monitoring and primary research

- Review of the latest construction company and project trends
- Biannual surveys using expert panels compiled from across the construction value chain:
 - Construction contractors
 - Equipment and material manufacturers and suppliers
 - Architects and designers
 - Project owners and financiers
 - Project advisors

2) Research

A) Sources

- Collection of the latest market-specific data from a wide variety of respected industry sources:
 - Government statistics
 - Industry associations
 - Company filings
 - Broker reports
 - International organizations

B) Expert opinion

- Collation of opinion taken from WMI journalist interviews of leading industry figures
- Analysis of third party opinion and forecasts:
 - Broker reports
 - Industry associations
 - Construction media
 - Official government sources

C) Data consolidation and verification

- Consolidation of data and opinion to create historical datasets
- Creation of models to benchmark data across sectors and geographies

3) Analysis

A) Market forecasts

- Feed of forecast data into market models:
 - Macroeconomic indicators
 - Industry-specific drivers
- Analysis of the WMI Construction Projects Database to identify trends by sector:
 - Latest project announcements
 - Financing shortfalls
 - Project cancellations and postponements

B) Report writing

- Analysis of market data
- Discussion of company and industry trends and issues
- Integration of survey results
- Annual review of financial deal and construction project trends

4) Quality control

A) Templates

- Detailed process manuals
- Standardized report templates and accompanying style guides
- Complex forecasting tools used to ensure forecast methodologies are consistently applied
- Quality control checklists

B) Quality control process

- Peer review
- Senior level quality control
- Randomized spot checks on data integrity
- Benchmark checks across databases
- Market data cross-checked for consistency with accumulated data from:
 - WMI Construction Projects Database
 - Company filings

2 Executive Summary

Supported by favorable economic reforms such as a reduction in corporate income taxes, the liberalization of foreign trade, the encouragement of foreign investment since 2004 and various stimulus packages offered by the government in order to support the economy during 2008–10, the Egyptian construction industry recorded a significant CAGR of XX% over the review period. However, as a result of current political unrest and slow economic growth projections WMI expects slower industry growth over the forecast period, at a CAGR of XX%.

3 Construction Industry Analysis

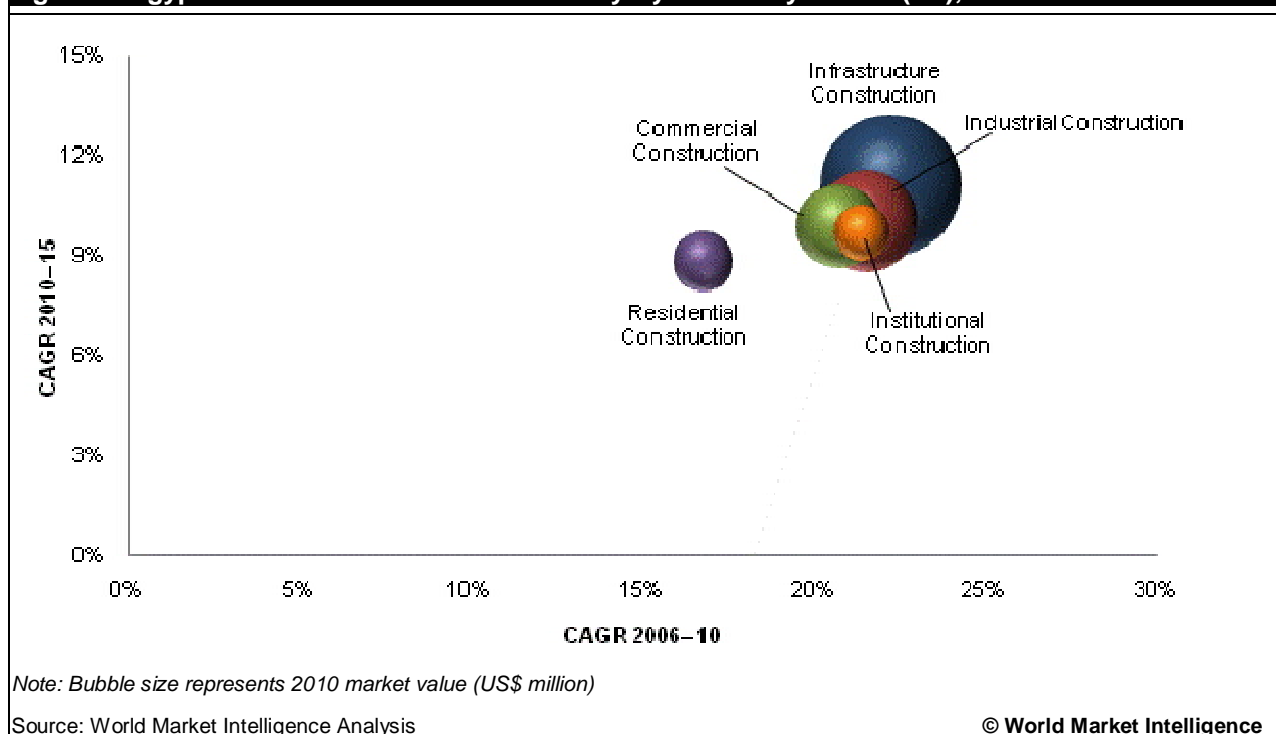

3.1 Construction Industry Overview

For a period characterized by a financial crisis and weak economies, the Egyptian construction industry performed strongly, growing by a significant annual average rate of XX% during 2008–10. This was accomplished by the various stimulus packages introduced by the Egyptian government during this period. The first stimulus package worth US\$XX billion was announced in October 2008 and a second package worth US\$XX billion was announced in the June 2009 budget. In January 2010, the Egyptian Government announced a further stimulus package worth US\$XX billion, which included US\$XX billion for water treatment projects, US\$XX million for social programs, US\$XX million for developing land near suburban areas, US\$XX million for the development of Cairo's ring road and US\$XX million for housing projects. Overall, the construction industry in Egypt grew at an impressive CAGR of XX% during the review period.

3.2 Industry Dynamics

Within the Egyptian construction industry, infrastructure construction was the largest market in 2010, with a share of XX%. In terms of growth, the infrastructure construction market registered the highest review period CAGR of XX% and is expected to record a CAGR of XX% during the forecast period. Industrial construction was the second fastest market during the review period, increasing at a CAGR of XX%.
